# FREE AGILE

**Unlock the power of agile in a safe, supportive environment. Learn how Agile is challenging how it can be used in your organisation.**

**Time:** One day

**Register:** [radically.co.nz/courses](https://radically.co.nz/courses)

**Cost:** Free\*

**Certification:** None

**Learn about agile, for free.** We've been at the forefront of agile since the beginning and have helped New Zealand's largest firms reap the benefits of agile.

## Course overview

This course covers the basic principles of agile, the mindset, the values and principles that underpin agile. You'll also learn practices of Kanban and Scrum, as well as the different thinking required to succeed.

**Is it technical?** No. It is ideally suited to those looking to better understand how agile can help them remain competitive and customer-centric in a world of continual change.

**Who is this for?** You must come from a New Zealand company with more than 30 full-time permanent staff and have a genuine need to consider agile ways of working. You can send up to two people from your organisation. If you would like to train more staff then please contact us. This free version of the Fundamentals of Agile is not for consultants, vendors, independent contractors or service providers.
